AlpenGlobal Capital, LLC is an SEC registered investment adviser that has provided investment management services to retail investors since 2006. We do not provide services as a broker-dealer. There are differences between investment advisers and broker-dealers, and it is important for you to understand them as you decide what kind of account is right for you. You can learn more about the differences between investment advisers and broker-dealers at the websites provided by the SEC like <https://www.investor.gov/crs>.

What Investment Services and Advice Can You Provide Me?

Investment Management Services: If you request investment management services, we will:

- Tailor an investment approach for you that reflects your age, income, family circumstances, financial condition, retirement goals, investment goals, and your risk tolerance.
- Conduct periodic reviews of your goals and asset allocation in response to changes in the above factors.

- Monitor market, economic, and geo-political trends.

- Buy and sell securities for your accounts that are consistent with your financial goals and risk tolerance.
- We will do so on a “discretionary” basis that authorizes us to trade without your approval of each trade.

Our Firm imposes a minimum account size requirement of \$100,000 for all new client relationships.

Additional detail about our services is provided in our Form ADV Part 2A at Item 4.

- ➔ Given my financial situation, should I choose an investment advisory service and why or why not?
- ➔ How will you choose investments to recommend to me?
- ➔ What is your relevant experience, including your licenses, education and other qualifications?
- ➔ What do your professional qualifications mean?

What Fees Will I Pay?

These are the principal types of fees you will pay to us in connection with our services:

- Asset-Based Fees: Investment management fees charged as a percentage of the value of the assets under our management. These are paid quarterly, in advance.

Our fees are negotiable and may vary amongst clients.

Other fees & costs you will pay to others in relation to your investments include:

- Custodian fees. If charged, these are paid to your custodian directly, on an annual or a monthly basis.
- Maintenance fees. If charged, these are paid to your custodian directly.
- Transaction fees for Accounts Transfers. If charged, these are paid to your executing broker-dealer directly, at the time of each transaction.
- Margin Interest. If charged, this is paid to your custodian.
- Account termination fees. If charged, these are paid to your custodian.

- Foreign securities tax withholdings. If charged, these are collected by the executing broker and paid to the foreign jurisdiction.
- Fees related to Funds. Mutual funds, exchange traded funds (ETFs), and private funds may impose ongoing management fees, administrative fees and redemption or surrender fees. These are paid to the issuer of the fund directly.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. More detail about our fees is in our Form ADV Part 2A, Item 5.

- ➔ Help me understand how fees and costs might affect my investments – If I give you \$10,000 to invest, how much will go to fees and costs, and how much will remain in investment positions?

What Are Your Legal Obligations to Me When Acting as My Investment Adviser?

We have adopted an internal Code of Ethics.

When we act as your investment adviser, we must act in your best interest and not put our interests ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you.

How Else Does Your Firm Make Money and What Conflicts of Interest Do You Have?

Here are examples to help you understand what this means:

- We charge fees for our services and that creates a conflict with your interests. The more assets there are in your investment account, the more absolute dollars you pay to us in fees. We therefore have an incentive to encourage you to increase the assets in your account as when we recommend you invest in securities rather than non-managed assets such as real estate or that you rollover a 401K retirement account to an IRA account managed by our Firm.
- We advise you to custody your investment accounts with Pershing, LLC because it provides us with essential trading, reporting, compliance, education and back office services.
- Our employees personally invest in the same, or different securities based upon their personal financial situations and their investments may perform as well as, better or worse than our clients' investments.

- ➔ How might your conflicts of interest affect me, and how will you address them?

How Do Your Financial Professionals Make Money?

Our financial professionals are compensated based upon their education, professional training, work background and the level of skill, sophistication and dedication they exhibit in conducting their work for the Firm. Financial professionals who are owners of the business share in the profits of the business. Non-owner financial professionals receive salaries and are entitled to participate in the Firm's bonus program in years in which bonuses are awarded.
